SKILLS

MY PROJECTS

EcliPsychosis - 2023

I was the **Product Owner** and **Lead Designer** that led to the creation of this fast-paced roguelike.

I worked mainly on **Combat** and **Enemy** Design.

Spark & Kling - 2023

Couch-coop puzzle platformer where I was onboarded to work on the **3C**. The project was drafted for the **Rookies** Award.

AI Prototypes - 2022

I worked on several AI prototypes, both on their **design** and **implementation**. They were both made in **Unreal Engine 5** and **Unity**, leveraging the different technologies provided.
